How to Make a Phone Call on the Anytime Pediatrics Web Platform

- Log in to the Anytime Pediatrics [platform](#) on a Google Chrome web browser
- Go to the patient tab at the top of your screen and select patient. Search for the patient you would like to call and click on the patient's name to be taken to their patient profile.
- From the patient's profile page, you will be able to make an outbound phone call to the patient. The phone number from their patient profile will default, but you can freely input a different phone number without changing the number on their patient profile. Once the correct phone number is entered/verified, click Call Patient to make the phone call.

Actions

A screenshot of the 'Actions' section in the Anytime Pediatrics web platform. The section has a dark purple header with the word 'Actions' in white. Below the header, there are two menu items: 'Schedule Appointment' with a calendar icon and 'Add Patient' with a person icon. At the bottom of the section, there is a white input field containing the phone number '1123232609' and a blue button labeled 'Call Patient' with a telephone handset icon.

- Click End Call to disconnect
