- 2. You can select View Photos + Files. This will open all files and images sent by the clinician or the patient.
 - 1. If the file can be opened by your browser, it will open up a preview. Right-click on the file and select save as.
 - 2. If the file cannot be opened by your browser, it will download automatically.
- 3. You can also go to the Visits page to access files or images from past visits.
 - 1. Go to the patient tab at the top of your screen and select visits
 - 2. Search for the visit by entering the patient name in the search bar
 - 3. Once you locate the visit you are looking for, click the view button to pull up the visit summary.
 - 4. If images or files were uploaded during the visit, there will be a button allowing you to view or download those files to your device.
