

# How to add a note to a triage encounter

Last Modified on 12/27/2023 2:18 pm EST

## ANYTIME After Hours

### How to add a note to a triage encounter

- Click on the patient tab and select Visits

- To add an additional note to a triage encounter, click on the EDIT button

A screenshot of the ANYTIME After Hours application interface, specifically the 'Visits' section. The top navigation bar includes the logo 'ANYTIME pediatrics' and several user roles: Organization, Patients, Practice Admin, Clinician, and a user profile for 'Doogie Howser'. Below the navigation bar, the 'Visits' section is displayed. It features a search bar with a 'Patient Name' dropdown and a 'Type to filter' input. To the right of the search bar are filters for 'Date' (set to 'This Month'), 'Practice' (set to '1st Call Pediatrics'), 'Seen By' (set to 'Everyone'), and 'Visit Status' (set to 'All Time'). A 'Download List' button is located below the search bar. The main content area shows a table of visits for December 2023. The table has columns for Date, Practice, Clinician, Patient, Complaint, Status, Nurse Triage, and Visit Summary. Two visits are listed: one from 12-19-2023 04:05 PM and another from 12-19-2023 04:00 PM. Both visits are for '1st Call Pediatrics' and were handled by 'Sarah Nygren, RN' for 'Kyle Nygren'. The first visit's complaint is 'Cold Symptoms' and the second is 'Medication Question Call'. Both are marked as 'Completed'. The 'Nurse Triage' column shows a green checkmark for both. The 'Visit Summary' column contains 'View' and 'Edit' buttons for each visit. The 'Edit' button for the second visit is highlighted in yellow.

Date	Practice	Clinician	Patient	Complaint	Status	Nurse Triage	Visit Summary
12-19-2023 04:05 PM	1st Call Pediatrics	Sarah Nygren, RN	Kyle Nygren	Cold Symptoms	Completed	✓	<a href="#">View</a> <a href="#">Edit</a>
12-19-2023 04:00 PM	1st Call Pediatrics	Sarah Nygren, RN	Kyle Nygren	Medication Question Call	Completed	✓	<a href="#">View</a> <a href="#">Edit</a> <a href="#">New</a>

- Scroll to the bottom of the screen. You will see an area to type your note. Once you have finished typing your note, click SAVE

- 12/19/23, 3:01 PM Sarah Nygren, RN: Out of inhaler. No shortness of breath or cough. Protocol Used: Asthma (Pediatric) Protocol-Based Disposition: Home Care Positive Triage Question: \* MILD asthma attack (no SOB at rest, mild SOB with walking, speaks normally, mild wheezing, frequent coughing) \* All higher-acuity triage questions were negative Care Advice Discussed: \* Reassurance and Education - Mild Asthma \* Fluids - Offer More \* Humidifier \* Avoid Asthma Triggers \* Reasons To Call Back - Difficulty breathing occurs - Wheezing persists over 24 hours - Mild asthma attack lasts over 5 days - Your child becomes worse

Followed up with Mom. Asthma Med called into CVS on Bridge Street.
